Lace paper wallet

Place the printed side face down and fold in half lengthwise. With the backup code facing up, fold the upper third along the dotted line to the markers. Fold again in the same direction, aligning the lower corners.

Hold the QR code flat, without tilting, and ensure the entire code fits within the frame. For help visit www.lace.io/faq

Wallet Recovery

Scan the QR code as instructed during wallet recovery in Lace. Contents are encrypted using your PGP keys. After restoration your paper wallet remains valid, keep it safely stored.
